Part III

Provisions concerning benefits

Article 10

Totalization of periods of coverage

1. If a person has completed periods of coverage under the legislation of both Contracting States, these periods, insofar as they do not overlap, if necessary, shall be added together for the purpose of acquiring entitlement to a benefit, as if they were periods of coverage in the relevant Contracting State.
2. If the total duration of the periods of coverage accumulated by a person under the legislation of a Contracting State is less than 12 months, the institution of that Contracting State shall not be required to apply Part III of this Agreement.

Article 11

Calculation of autonomous benefits

Where entitlement to a benefit exists under the legislation of one Contracting State without the application of paragraph 1 of Article 10, the competent institution of that Contracting State shall determine the amount of the benefit in accordance with its legislation on the basis of periods of coverage completed exclusively under that legislation.

Section 1

Benefits under the legislation of Korea

Article 12

Special provisions relating to Korea

1. To obtain a disability or survivors benefit, the requirement of the legislation of Korea that a person be covered when the insured event occurs shall be considered to have been met if the person is insured for a benefit under the legislation of Austria during a period in which the insured event occurs according to the legislation of Korea.
2. In applying Article 10, a period of coverage recognized under the Austrian legislation as a period completed by underground or equivalent work in a mining enterprise shall be taken into account as a period of equivalent work under Korean legislation.

Article 13

Calculation of the Korean benefits

Where periods of coverage under the legislation of Austria are taken into account to establish eligibility for benefits under the legislation of Korea in accordance with Article 10 and paragraph 1 of Article 12, the benefit due shall be determined as follows:

- (a) The competent institution of Korea shall first compute a pension amount equal to the amount that would have been payable to the person if all the periods of coverage taken into account under the legislation of both Contracting States had been completed under the legislation of Korea. To determine the pension amount, the competent institution of Korea shall take into account the person's average standard monthly income while covered under the legislation of Korea;
- (b) The competent institution of Korea shall calculate the partial benefit to be paid in accordance with the legislation of Korea based on the pension amount calculated according to the preceding subparagraph, in proportion to the ratio between the duration of the periods of coverage taken into consideration under its own legislation and the total duration of the periods of coverage taken into consideration under the legislation of both Contracting States.

Section 2

Benefits under the legislation of Austria

Article 14

Special provision relating to Austria

When a person who has completed periods of coverage under the legislation of both Contracting States, or the survivor of such a person, claims a benefit, the competent Austrian institution shall determine, in accordance with Austrian legislation, whether the claimant is entitled to a benefit by adding together the periods of coverage, as provided in Article 10, and taking into account the following provisions:

- (a) Where Austrian legislation makes the award of certain benefits conditional upon the completion of periods of coverage in an occupation covered by special schemes or in a specified occupation or employment, only periods of coverage completed under a corresponding scheme or, failing that, in the same occupation or, where appropriate, in the same employment under the legislation of Korea shall be taken into account for the award of such benefits;

- (b) Where Austrian legislation provides that the period of payment of a pension shall prolong the reference period during which periods of coverage must be completed, periods during which a pension has been awarded under the legislation of Korea shall also prolong the aforesaid reference period.

Article 15

Calculation of the Austrian benefits

Where entitlement to a benefit exists under Austrian legislation only with the application of Article 10, the competent Austrian institution shall determine the amount of the benefit in accordance with Austrian legislation on the basis of periods of coverage completed exclusively under that legislation and taking into account the following provisions:

- (a) Benefits or parts of benefits, the amount of which does not depend on the duration of periods of coverage completed, shall be calculated in proportion to the ratio between the duration of the periods of coverage to be taken into account for the calculation under Austrian legislation and the period of 30 years, but shall not exceed the full amount;
- (b) Where periods after the contingency arises are to be taken into account for the calculation of invalidity or survivors' benefits, such periods shall be taken into account only in proportion to the ratio between the duration of the periods of coverage to be taken into account for the calculation under Austrian legislation and two-thirds of the number of full calendar months between the date on which the person concerned reached the age of 16 and the date on which the contingency occurred, but shall not exceed the full period.
